

Datasheet: Azure 1st Pass

Unlock the Full Potential of Azure with a Complimentary Assessment

Organizations using Azure but unsure of potential gaps can benefit from expert guidance and recommendations. Trust in the solution does not always provide confidence in the deployment. Often an organization may lack the expertise and experience necessary to manage the environment. For organizations wanting to explore the full benefits of Azure, or to validate what they have already deployed, a fresh perspective can uncover inefficiencies and suggest optimizations that might have been overlooked from within the organization.

WHY IT MATTERS

Objective Evaluation

Receive an unbiased evaluation of the organization's Azure infrastructure, identifying areas for improvement without internal biases.

Expertise & Experience

Gain specialized knowledge and extensive experience with Azure that internal teams may lack. Benefit from the latest best practices, tools, and technologies.

Cost Efficiency

Identify opportunities to optimize cost by finding unused resources, over-provisioned services, and determining the effectiveness of service plans.

Security & Compliance

Evaluate the organization's Azure environment against industry standards and regulatory requirements, ensuring that security and compliance measures are adequately implemented. Identify potential risks and vulnerabilities in the Azure setup to help mitigate them proactively by reducing the likelihood of disruptions or security breaches.

Performance Optimization

Analyze your Azure footprint and receive suggestions for performance enhancements. Take the guess work out of Azure utilization and ensure that your organization gets the best possible performance from its Azure resources. Highlight how resources are being utilized and suggest ways to better allocate them, ensuring efficient use of cloud services.

work in Azure

Vendor Accountability

Hold the service provider accountable, ensuring they meet agreed-upon service levels and performance standards.

HOW IT WORKS

Step 1: Azure Consumption

Do a 30 minute “get to know you” call and provide an MNDA.

Step 2: Understand Pain Points

RKON gains access to an account that has reader IAM permission on the subscriptions(s).

Step 3: Executive Readout

30 minute executive readout and discussion of the 15-point assessment.

Assessment Agenda

- Management Groups
- Entra ID Secure Score
- Azure Subscription Secure Score
- Azure Advisor Recommendations
- Defender for Cloud
- Reservations & Savings Plans
- Tagging Program
- Cost Management Budgets & Alerts
- Policies & Status
- Backups
- Storage Accounts
- Virtual Machines
- SQL

DELIVERABLES

A **FREE 15-point assessment** to gauge the maturity of the deployment that provides guidance and recommendations where applicable. This assessment can be provided to your in-house team(s) for remediation, if necessary, or to acknowledge a job well done. You can choose to have RKON remediate uncovered gaps and/or provide additional recommendations for future growth initiatives.

WHY RKON

Get Tailored Azure Solutions

Founded in 1998 in Chicago, RKON's comprehensive understanding of execution strategies, technology, business processes, operations analytics, risk and compliance, and planning and integration supports hundreds of organizations. Recognizing that no two companies have the same IT challenges, RKON takes a truly customized approach. We serve as trusted advisors to our customers, providing strategic guidance, technical resources, and honest assessments to address competitive challenges and meet long-term goals.
