

Build Trust in Your Data. Protect What Matters.

Data Governance Program

Expert-Led Data Governance Aligned to Your Business Needs

In a world driven by data, poor governance leads to risk, inefficiency, and missed opportunity. RKON's modular Data Governance Program helps organizations of any size establish clarity, control, and confidence in their data—by aligning people, processes, and technology.

Our Solutions: Three Modules. Fully Flexible.

Governance (Foundational)

Create the foundation with charters, policies, roles, and responsibilities.

Key Deliverables:

- Data Governance Charter
- Policy & Standards Library
- Stewardship Roles & RACI Matrix
- Communication & Training Plans

Data Discovery and Tagging

Know what data you have, where it lives, and how it flows.

Key Deliverables:

- Enterprise Data Inventory
- Classification & Tagging Framework
- Lineage Mapping
- Data Catalog Setup

Technology Implementation

Protect sensitive data with DLP, encryption, and access controls.

Key Deliverables:

- DLP Tool Deployment & Policy Setup
- Data Security Controls (Encryption, Masking, CASB)
- Incident Response Playbook
- Reporting Dashboards

Why RKON

- » Security at the core of every solution
- » Full-stack services that integrate seamlessly
- » Global access to accredited security professionals
- » Technology-agnostic
