Secure AWS Engineering Essentials
FedRAMP Readiness Review

9-Hour Remote Readiness Review

To launch your product in the lucrative FedRAMP Marketplace you need an answer better than "it depends" for executives to approve the investment. Plan a program that fits your business.

Clear the FedRAMP Fog

This three-week review assesses a broad range of your business so you can make an informed decision about investing in your FedRAMP program. RKON experts will deliver the hard data you need, including:

» Three-year projection
» Return on investment estimate
» Cost plan
» Competitive market analysis
» Target customer analysis
» Initial estimate of technology lift
» Project roadmap, schedule, milestones & budgeting

Engagement activities include:

1. Lead discovery interviews with key decision makers
2. Build a Business Justification report
3. Present the report to executives

Review Audience

RKON experts will lead two-hour interviews with key leaders:

- Federal Sales
- Product Development
- Product Management
- Information Security

Outcomes

After the engagement, company executives will gain insight into:

- Projected sales and returns
- Best fit customers
- Gaps to meet requirements
- Schedule and costs

FedRAMP Program Launch → Preparation → Authorization → Continous Monitoring

★ Ready   ★ In Process   ★ Authorized

Why RKON

- **AWS security specialists, not generalists:** Deep, hands-on cloud security expertise.
- **Security that actually ships:** Advisory plus implementation, not just reports.
- **Compliance without the chaos:** FedRAMP, SOC 2, PCI, and more, done right.
- **Faster, secure AWS adoption:** Reduce risk, cost, & operational drag.
