

Microsoft, AWS & GCP

INCREASE PROFITABILITY BY SIMPLIFYING MULTI-CLOUD PROCUREMENT

PRIVATE OFFERS ACROSS ALL THREE CLOUD ENVIRONMENTS. Looking for a smarter way to buy cloud software? RKON helps organizations streamline procurement across Azure, AWS, and Google Cloud with exclusive private offers, unified multi-cloud strategies, and enterprise-grade security. Achieve faster buying cycles, transparent pricing, and compliance built into every transaction.

Some of our Partners

Why Transact with RKON via Cloud Marketplaces?

Unified Multi-Cloud Strategy: Access cloud solutions through a single trusted partner.

Exclusive Private Offers: Unlock negotiated pricing and benefits that maximize value across all marketplaces.

Enterprise-Grade Security & Compliance: Every transaction is governed, secure, and built for compliance.

Simplified Procurement & Billing: Streamline purchasing and consolidate costs across all three clouds.

Faster Time-to-Value & Commit Optimization: Streamline deployment and simplify processes while using eligible purchases to meet your cloud commitment, converting cloud expenses into profits.
